Reading documentation

Education

General Assembly - Software Engineering Immersive	Sept. 2019 to Dec. 2019
Tunxis Community College Computer science classes, no degree	Aug. 2018 to June 2019
Lincoln Culinary Institute	May 2009 to Nov. 2010
Berlin High School	2004 to 2008

Employment

General Assembly — Stamford, CT
Software Engineering Immersive, Engineering Fellow — Sept. 2019 to Dec. 2019

This 12 week immersive program exposed me to a wide variety of different technologies. Learned full stack development I completed 3 projects using the technologies I learned, and have been maintaining the curiosity that was instilled in me when it comes to different tasks I can accomplish through writing code.

Logo Sportswear — Wallingford, CT
Distribution — June 2017 to Sept. 2019

Shipped and received orders, as well as maintained organization for several thousand orders at a time, making sure they were delivered to the appropriate departments in a timely manner.

Liberty Tattoo — Berlin, CT
Manager — Apr. 2013 to June 2017

I was in charge of all of the scheduling, customer relations, and cleaning. This was a high stress environment which required me to have to maintain a cool head while dealing with difficult individuals and still completing my responsibilities. I learned a great deal of customer service skills, as well as conflict resolution.
